OPEN DOORS OUTREACH NETWORK INNOVATIVE APPROACH

The Outreach Network provides services to survivors through a three-prong approach in service counties. The approach emphasizes innovation in services through **Care**, **Coordination** and **Collective impact** to provide high quality and promising practices to support the needs of survivors.

CARE

- On-call 24/7/365 to meet survivor's individual needs
- Provided by an Open Doors Outreach Teams consisting of one or more:

SURVIVOR MENTOR Manages care and builds a trusting relationship through shared experiences with victims

REGIONAL ADVOCATE Connects victim with necessary services within the community

CLINICIAN Performs individual, group and/or family counseling to overcome complex trauma

COORDINATION

- Mapping to identify gaps, standard protocols rooted in translational science and research, applied learning and education
- Leveraging existing community services and resources
- Building best practice models and scaling solutions that work

COLLECTIVE IMPACT

- Common agenda that benefits entire community
- Engaging all stakeholders in the community
- Mobilize funding through the support of the backbone organization

Voices for Florida serves as the backbone organization for the Open Doors Outreach Network. In this role, Voices guides the vision and strategy of the Outreach Network, provides education and training for consistent service delivery protocols, establishes shared measurement practices, and mobilizes funding for the Outreach Network.
